

Sharing your own interests through your Sassy Scrubs is a great way to connect with your patients and have fun at the same time! Doug Wilson, Respiratory Therapist and stained glass artist extraordinaire has fun both at work and at home in his Sassy Scrubs Medical Scrub Top.

Doug Wilson helps patients every day in his position as Senior Respiratory Therapist at the local hospital near his home in Ohio. By night, he's busy in his artist's studio, creating beautiful stained glass works of art! From small, colorful privacy windows, to mural sized fantasy themed pieces, his talent for color and design is awe-inspiring.

Doug was surprised at Christmas by a Sassy Scrubs Medical Scrub Top purchased by his wife, Linda, in our "Stained Glass" scrubs print. Linda states, "My husband loved the scrubs!" and she declares that Doug is "a colorful fella". We can certainly see that in this great photo Linda shared of Doug with one of his amazing 3-D stained glass pieces.

A return customer, Linda knew just where to come for a great gift for Doug to help him share his passion with his patients. Linda, an RN since 1984, knows scrubs and is thrilled with her purchases from Sassy Scrubs. Linda shares "We can't get over how durable his Sassy Scrubs are. After many, many washings, there are no frayed edges on his much-used scrubs. The seams are in great shape, no shrinkage, and the colors are still vibrant. Best of all, they're made in the USA!"

After returning to school to become an art teacher, Linda has taught art in her local high school for the past 8 years, still keeping her RN license current. We'd say that talent runs strong in this artistic family and are thankful to Linda for sharing their story with us, and with you!

To enjoy more of Doug's imaginative stained glass work, and also some stunning works by Linda, visit Doug's website here: [www.wonderland-glass.com](http://www.wonderland-glass.com)
